

CERTIFICATE 2022

Objective

[Forum Ethibel](#) is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

[RESSOURCES](#) is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

General remarks

Activities: CEJ asbl relies on individuals, public institutions, organisations, and companies to achieve their goals and mission. This audit focused on their second-hand shop: Le ROUF. The organisation collects, sorts, and sells goods in the shop. The sales turnover partially finances their own activities. Some goods are donated to those in need. The organisation also has an atelier in which goods can be fixed, refurbished, and upgraded. The social goal of 'Le Rouf' is to promote socio-professional integration, offer sale at low prices and 'do-it-yourself' workshops.

Employees: 'Le Rouf' withstood two hard years of the Covid-19 crisis. This implied a high workload, but the organisation proved to be resilient. Trainings are offered on a voluntary basis, which will be more systematically organized in future years.

Governance: Many employees are member of the general assembly and the 'one person, one vote'-principle is applied. All employees are informed about the results of the organization and its strategic choices, mostly in an informal manner. Profits are reinvested in the organization and there are no shareholders. There is no gross remuneration greater than 5 times the lowest salary. The organization is compliant with the social and tax legislation.

Documentation and additional information were transparently shared with the auditor.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2021, the **activities of Centre d'entraide de Jette asbl are compliant** with SOLID'R Ethical Charter that is based on the **European criteria of social economy**.

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
