

CERTIFICATE 2022

Objective

[Forum Ethibel](#) is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

[RESSOURCES](#) is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

Verification

Terre

Terre wants to offer opportunities so that everyone can find their place in society. This can be achieved through social economy, local and global solidarity and through the preservation of the environment. The organisation focuses on introducing vulnerable people into the labour market; especially in the field of collecting, recycling and reusing second-hand goods.

General remarks:

Activities: Terre asbl is a big organisation with automated systems for collecting, sorting and packing used clothes. Thanks to their automated systems, they are capable to measure each ton of each item category in real time. Terre asbl recognizes the difficulty to reach people from disadvantaged backgrounds and see its enterprise going more and more to the direction of an environmental organisation than a reinsertion organisation, whereas the initial goal was to use environment as a tool for a social purpose. Terre asbl tries to find their initial target group via word of mouth, but no official definition nor framework is in place to define this new target group. A part of the revenues of Terre asbl goes to Autre Terre, an NGO part of Groupe Terre. The social purpose of this NGO was not screened for during this certification.

Employees: More than 200 people are employed, of which 8 currently enrolled at the social services. All workers are welcome to the General Assembly and Terre asbl uses "participative management", meaning everyone is informed and consulted for strategic decisions. Workers can access trainings.

Governance: Terre asbl is transparent on their allocation of resources.

Documentation and additional information was transparently shared with the auditor.

During the on-site audit, the verifier had contact with a proportion of the employees to gain insights in their point of view.

Result

All requested documents were delivered, and questions were answered in full. Forum Ethibel declares that, for the year 2021, the **activities of Terre are compliant** with SOLID'R Ethical Charter that is based on the European criteria of social economy.

Notification

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
