

CERTIFICATE 2022

Objective

[Forum Ethibel](#) is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

[RESSOURCES](#) is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

Verification

La Poudrière

La Poudrière is a community consisting of members with different origins, religious convictions, ages and social backgrounds. The organisation aims to create a new habitat for people who need material or moral support. It offers structure, stability and guidance so that the members find balance and can give new direction to their lives. The community has developed an economic activity in the recycling sector in order to support the maintenance of its living environment.

General remarks:

Activities: La Poudrière is a community in which the community members live together. The organization welcomes people for (temporary) accommodation and provides moral and/or material support. In order to support the maintenance of the community, La Poudrière developed the economic activity of good collection and second-hand sales in the region of Brussels & Hainaut. They track KPI's on how the community is evolving, but they don't have a specific target to attain.

Employees: People working at La Poudrière often also live there. Everyone is welcome in the community, there is no political, religious or other distinction. The community members have regular meetings for strategic decisions.

Governance: Voting policy is one person, one vote. There is an emphasis on taking decision unanimously.

Documentation and additional information was transparently shared with the auditor.

During the on-site audit, the verifier had contact with a proportion of the employees to gain insights in their point of view.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2021, the activities of **La Poudrière** are compliant with SOLID'R Ethical Charter that is based on the European criteria of social economy.

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
