

CERTIFICATE 2024

Objective

Forum Ethibel is a Belgian not-for-profit organisation and recognised as an expert in **rating, independent control and certification** of products that meet ethical, societal, ecological and good governance standards. This audit and certification is carried out on behalf of Ressources.

RESSOURCES is the federation of social economy enterprises active in **waste reduction** through the **recovery, reuse and valorisation** of resources in a **circular economy**.

The Solid'R label is an ethical label for companies within the **social economy sector** active in the recycling, collection and sale of **second hand textiles and goods**. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on **European level** in order to promote these solidarity principles and to apply the social economic criteria.

Verification

La Poudrière

La Poudrière is a community consisting of members with different origins, religious convictions, ages and social backgrounds. The organisation aims to create a new habitat for people who need material or moral support. It offers structure, stability and guidance so that the members find balance and can give new direction to their lives. The community has developed a re-use and recycling activity in order to support the maintenance of its living environment.

General remarks:

Activities: In order to support the maintenance of the community, La Poudrière developed the economic activity of good collection and second-hand sales in the region of Brussels and the Walloon region. Disadvantaged workers are employed in these activities. The activity report is sent to all members of the organisation. It is available on request to anyone interested in it. The various community meetings serve to discuss and assess the internal operations and societal issues they wish to engage with.

Employees: People working for La Poudrière often also live in the community. Everyone is welcome, there is no political, religious or other distinction. The increasing average age of the volunteers necessitates the substitution with volunteers or professionals to ensure the long-term sustainability of the activities at La Poudrière.

Governance: La Poudrière is a small community managed by only 3 full time employees. As such, governance is quite open by definition. This is reinforced by the fact the organization shares insights from its activities with organizations that study social exclusion. Three of the four employees are part of the General Assembly and the voting policy follows the 'one person, one vote' principle. There is an emphasis on unanimous decision-making. The accounts are finalized by an external volunteer accountant and made public through the National Bank of Belgium (BNB).

Documentation and additional information were transparently shared with the auditor.

Result

All requested documents were delivered and questions were answered in full. Forum Ethibel declares that, for the year 2023, the **activities of La Poudrière are compliant** with SOLID'R Ethical Charter that is based on the **European criteria of social economy**.

Notification

Societal value

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

Procedure

Organisations that want to receive the Solid'R label for the **first time** are subject to an on-site audit. In the following years, a **remote audit** is carried out.

For 'old' member organisations, an on-site audit will be organised **every three years**. For the smallest organisations this is replaced by a skype call. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining **in-depth views** about the organisations and pursuing **cost-efficiency**.
